

Tribology for Industry – Training Course

10th September 2019

The Chemistry Lab, Shine Conference Centre,
Harehills Rd, Leeds LS8 5HS

£350 per delegate (early bird), £425 after 9th August 2019

Book your place - hello@ingramtribology.com. Or online ingramtribology.com/book-now/

The Tribology for Industry training course is tailored to meet the needs of researchers and product development scientists. Attendees will be taught the basics of Tribology, the fundamentals of friction and wear, along with the most useful calculations and the most popular test methods.

On completion of the training course the attendees will have the knowledge they need to use Tribology methods with confidence, allowing them to conduct R&D projects successfully.

The following topics will be covered:

- Surfaces
- Lubricants
- Lubrication regimes
- Tribofilms
- Friction fundamentals
- Friction testing
- Wear testing
- Fatigue testing
- Surface analysis
- Screener test design

Who should attend?

R&D Scientists, R&D Engineers, R&D Managers, Lab Technicians, Mechanical Technicians, PhD Students, Formulators, Technologists.

Details:

10th September, 9:00 am – 4 pm

Lunch and tea/coffee are provided

WIFI available

Ample free parking on-site

Payment via credit/debit card online, or an invoice can be generated on request.
